## Updates & What's New

We had a new member of the Management Team start on the 20<sup>th</sup> May

Hello Everyone, I'm Michelle and I am very excited to be joining the amazing team at Brampton Lodge. I will be the Home Manager with the ongoing support of Alison and Claire as my Deputies. I've come from a care home in New Romney where I was the manager for 12 years but decided was ready for a change.

When I'm not at work I spend most of my time in my garden or out walking with my husband, Trevor and dog, Wilfred. I have a son called Jack and he is 23 years old. He's just completed his final year at university where he's been working towards becoming a PE teacher. I love animals, especially donkeys and hedgehogs. I am a very keen gardener and like growing things. I have recently started to learn to dressmake and I was attending college before the Coronavirus came. We have lots of home made bunting and cushion covers at home as these were easy to start with and I plan to make bits to bring into the home but I've still got a long way to go before I can make clothes that could be worn.

I absolutely love being a Home Manager and I'm looking forward to getting to know everyone at Brampton Lodge.

The results.

Well done.

The guinea pigs will love this Kale.

## STORY OF THE MONTH

**This month's story is from Jean.**

**Jean was born in Folkestone and loves sitting by the sea.**

**When I was in the WAF serving down in White Hall in the Air Ministry building, Sir Winston Churchill's office was over ours.**

**I'd been over the road to pick up some donuts for everyone and he must of seen me come back with them. As he came down to our office to nick a donut, he did say " Thank you I'll have this". I didn't mind as I think he was lovely.**

**I didn't like Mrs Atlee though. She was part of the Air Crew Medial Board and she was nasty and would of had everyone up on charges. But our little CO ordered her out of our office and warned her off his people.**

**I hope you have enjoyed this newsletter,**

***Best Wishes, Lorna***
